

parks, natural resource management agencies, educator preparation programs, museums, or other organizations with expertise in engaging young people with real world examples of environmental and scientific concepts. The legislation also establishes a pilot program for outdoor school education programs that offer intensive, hands-on learning experiences, such as residential programs and summer camps.

The No Child Left Inside Act will also help coordinate Federal efforts on environmental education. It requires the Secretary of Education to establish an environmental literacy advisory panel to coordinate and report on environmental literacy activities across Federal Agencies. It also will provide easy access to environmental education resources through the Department of Education's website.

The No Child Left Inside Act has the support of nearly 100 organizations, representing educators, parks, museums, environmental organizations, and community-based organizations at the national, State, and local levels. They stand ready and willing to partner with schools across the Nation. The Federal Government should be a partner too. That is why I urge my colleagues to join me in cosponsoring and passing the No Child Left Inside Act.
